The draft placed below was received by me from the Educational Secretary at about 4 p.m. to-day, for record of opinion and submission to Dewan by this evening.

2. The cost of the proposals per annum will be about Rs.35,000 thus:

Pay of Superintendents at an average of Rs.225/ each 225 x 12 x 8	..	Rs.21,600
Establishment at Rs.40 each 40 x 12 x 8	..	3,840
Travelling allowance of officers and establishment at say Rs.75 per month, 75 x 12 x8		7,200
Rents, contingencies etc. at Rs.24 per month or say..	..	2,360
		35,000

3. This works out on an average to Rs.515 per annum or Rs.43 per month for each of the 68 taluks in the State.

4. Looking at the various duties of the proposed Superintendents as given in para 2 of the draft order it is doubtful whether they will be able to do any such useful work first hand and to the best advantage. Such work as collection of correct statistics etc. will necessarily have to be left to existing staff, while the compilation of such statistics can be undertaken by the District or Central Committees with only temporary subordinate staff. As regards

regards coming into contact with leading people, rousing enthusiasm etc. the revenue officers seem to me to be the agency likely to work to the best advantage.

5. Our Revenue Sub-Divisional Officers are a set of high grade men and there is a general feeling that they are not being fully utilized. This is a good opportunity for utilizing the excellent material available. Most of the duties specified in para 2 of the draft order may be declared to form an important part of the duties of Sub-Divisional Officers and from such a course I think much good result can be expected. If each Sub-Divisional Officer be given a smart assistant of the rank say of a Taluk Sheristadar, to help him in such work, the arrangement should work very well. Such a hand may also be attached as Assistant to the Secretary of each District Committee the extra Secretaryships of each District Committee being abolished.

6. The cost of such a scheme will be much less thus:

17 Sub-Divisional hands and 8 District Committee hands,	at Rs50 each per mensem	Rs. 15,000
Travelling allowance etc.		2,500
		17,500
Less saving of 8 allowances to Extra Secretaries of District Committees, at Rs.30 each per mensem..	..	2,880
		14,620

16 is the present number but the temporary retention of one is not taken into account. M

7. I respectfully submit the scheme sketched above for the consideration of Government. There are departments already for dealing with questions relating to Education, Agriculture and Industries. The work contemplated in the draft order is mainly one of influencing and moving the masses of population. This can be more effectively done by the regular revenue staff who are in intimate touch with the people than by a new set of officers of high status as proposed in the draft order.

Submitted to His Highness.

I submit herewith a draft order on the subject of appointing special officers in each district to organize and spread the work of the Economic Conference.

2. The duties of the Deputy Commissioners are too multifarious to allow them to devote much attention to Conference work. It is very necessary to have an officer, who could go through the whole district, get a grasp of local conditions, collect information ,ascertain local needs and bring all activities to a focus. When the subject was discussed at a meeting of the Deputy Commissioners during the last Birthday festivities, many of them were of opinion that such an officer would be of great help to them in developing the work of the Conference.

3. The Extraordinary Member of Council and the Second Member are in favour of sanctioning these appointments temporarily for a year, but the First Member is not in favour of the scheme.

4. I had originally suggested in a letter to Mr. Campbell that these officers might be appointed for one year; but, on further consideration, I think a year is too short a term for them to do much real work, as it will take them nearly a year to understand local conditions and begin active and useful work. I am, therefore, of opinion that these appointments may be made temporarily for a period of two years by which time we shall be in a position to see whether their continued employment is desirable. Unless we have some special establishment for work of this kind, for some time at least, we cannot expect satisfactory results.

5. A list of officers and non-official gentlemen who are considered eligible for appointment as District Superintendents has been considered and approved by the Council. It is proposed to send the list to the Deputy Commissioners of Districts and request them to select three persons out of the list for appointment as District Superintendent of the district concerned. If the Deputy Commissioners have any other names to suggest besides those mentioned in the list, they will be permitted to add such names to the list. The final choice and appointment will be made by Government, out of the three names suggested for each district by the Deputy Commissioner concerned.

6. The draft order may be graciously approved.

In the Dewan's note submitting the file to His Highness it is stated that the First Member is not in favour of the scheme. I had no opportun-ity of recording my reasons for opposing it, and I kept the file with me yesterday for recording them here, lest it should be thought that my opposi-tion was due to a mere fixed idea. But on second thoughts I see there is little use in doing so at this stage.

The men whose names are given are all fairly intelligent and active; but I do not know whether they will give satisfaction in what is expected of them. If the Dewan is satisfied, they may be appointed. In fact I do not wish to introduce any element of uncertainty by making any suggestions of my own.

Submitted to His Highness.

His Highness has already been pleased to sanction the proposals made in my Submission Note dated the 17th July 1914, regarding the appointment of a District Superintendent for each district in connection with the development of the work of the Economic Conference. As stated in paragraph 5 of the Submission Note, the list of officials and non-official gentlemen approved by the Council was forwarded to the Deputy Commissioners of Districts and their suggestions were invited for filling up the appointments. A statement is put up showing the names of three persons suggested by the Deputy Commissioners for their respective districts.

2. The subject was considered at a meeting of Council held on the 12th instant and the Council were of opinion that the following officers and gentlemen may be appointed for the districts noted against them:-

Order No. G 1751-61
G. Dis 152-14-1
Dated Bangalore 18th Aug 1914.

The experience of the past three years has shown that, in order to attain the objects of the Economic Conference more fully , it is desirable to appoint a full time officer in each district to study and investigate local conditions and organize economic activities in the district. The work of the District Committees will in this way be brought into closer touch with the activities of the Central Committees. The proposal was considered at a meeting of Heads of Departments and Deputy Commissioners held at Mysore in June last and elicited a considerable amount of opinion in its favour. The Government of His Highness the Maharaja are therefore pleased to sanction, as a tentative measure, for a period of two years for the present, the appointment of 8 officers, one for each district, to assist the Deputy Commissioners in stimulating and systematizing Conference work. These officers will be designated District Superintendents, A.E & I (i.e., Agriculture, Education, Industries and Commerce).

2. The officers will work directly under the Deputy Commissioners of the Districts and will serve as their personal assistants for Economic Conference work. They will have no authority over the Amildars who will, however, be expected to co-operate with and render them every assistance in the discharge of their duties. The District Superintendent will be an additional ex officio member of the District Committee and his principal duties will include the following:-

(1) He should study the economic condition and needs of the district, collect information and correct statistics.

The compilation of correct statistics with the help of the departments concerned will be one of his principal duties during the current official year.

(2) He should attend meetings of the District Committee and help the District Committee with information collected from various sources.

(3) He should keep close touch with the Secretaries of the Central Committees of the Economic Conference and the progress of Conference work generally in the whole State.

(4) He should explain the aims and objects of the Economic Conference and the corresponding departments

of

Government to the people and help them to get a clear idea of their more important wants under Education, Agriculture and Industries and Trade, and in devising measures to meet such wants with the help of the Committees and the departments concerned

(5) He should travel in the district frequently, come into contact with all people likely to take an active part in the progress of education, agriculture, indutries and trade, and organize developments in all these directions.

(6) He should endeavour to rouse the enthusiasm of the people, prepare them for the initiation of measures and schemes by the departments of Education, Agriculture and Industries and obtain the help of Experts through the departments concerned wherever the local people may want them.

(7) He should guide the work of Village Committees and Taluk Progress Committees on right lines ~~and~~ by attending the Committee meetings whenever convenient and by suggestions in other ways.

3. Four of these Superintendents will be selected from among qualified non-official gentlemen and the other four from the list of Amildars. The pay of these officers will be fixed at Rs. 200 or Rs. 250 per mensem as the case may be. They will

draw halting and mileage allowances at the following rates:-

Daily allowance Rs. 3/-

Mileage As 6/-

Railway fare Double Second Class.

An establishment consisting of one clerk on Rs. 25 and two peons on Rs. 8 and 7 respectively will be allowed to each of them.

4. These officers will be required to visit the Bangalore City for a week once in two months to meet the Secretary to the Conference and the Secretaries to the Central Committees and receive instructions from them as to the manner in which they should employ themselves most usefully in advancing the work of the Conference in their respective Districts. At these meetings the experience of the different districts may be compared, local wants and difficulties may be brought to notice, the aims and work of the Central and District Committees in regard to each important subject made clear and suggestions discussed for the development of economic work. In this way both the local and central organizations will be able to work in complete harmony and with a full knowledge of the objects and correct methods to be followed.

5. From the date of this order, one of the two Secretaries appointed under the Government order dated 29th August 1913, will cease to hold that office

and the work of the District Committees will be attended to by one Secretary, official or non-official, as the Deputy Commissioner and President of the District Committee may determine. He will continue to draw the carriage allowance sanctioned in G.O.No.C.1958-67/G.M.55-12-237 dated 29th August 1913. It will however be open to the District Committee to appoint, in addition, one or more persons, whether official or non-official, who may be willing to undertake the duties, ~~as~~ Secretary in an honorary capacity, to attend to the work of Sub-Committees or any specified portion of the work of District Committee.
